Metrosoft have been awarded a 'special commendation' in the European Newcomer/Innovator of the Year category of Funds Europe Awards 2017. In an effort to recognize the importance of innovation and invention, this award is for a newcomer or innovator to the industry. Judges score entries for excellence in these key areas: performance, growth, innovation, development, client service, commitment to Europe and the industry, achieved between 1 June 2016 and 31 May 2017.

I was in London on November 2nd to receive the award. I am delighted that Metrosoft was recognized among top global players of the fund industry. The event took place in Tower of London. <http://www.funds-europe.com/winners-2017>
